Objections:

"I already have Office 2013, and it works just fine for me."

With thorough cloud integration, improved version history, and cool new features in each application. Office 365 is the best choice for working across all your devices, having plenty of storage (1 TB) to save all your stuff and you'll always have the latest updates when new features come out.

"I don't even have a PC or laptop at home anymore; I just use Office at work or school."

With Office 365, you can use Office Mobile to work on your documents wherever you go, whether you have a full computer

or not. And thanks to OneDrive cloud storage, you can continue work on those same projects on Office Desktop from work, school, home, or anywhere else..

"I've been using free alternatives to Office for a while now, and I don't see any reason to change."

Alternatives to Office have but a fraction of the amazing, progressive Office features that are there to help you stay as productive as possible. We now have free Office Mobile apps for small tablets and phones but the best value is Office 365 so you can work on any devices anywhere.
