

Your integrated Dynamics cloud store, instantly

We understand you'd like to grow your business and take it online effectively. That's why we created Sana Express, the cloud e-Commerce solution for small & starting businesses. Sana Express offers the power of Sana – the fully integrated and real-time platform for Microsoft Dynamics – hosted on Azure for only €399/\$499 per month.

Start selling now

Setting up a web shop has never been this easy.

With Sana Express there is no software to install and configure, neither do you have to manage a server. We provide a web shop as a service, which means your shop is hosted and you can be online quickly. We handle the technology, so that you can focus on running and growing your business. Like you can do with NAV 2013, your shop will be hosted in the cloud, on Azure if wanted, allowing your shop to scale when your business grows.

Fully integrated, absolutely real-time

Stock level NAV = stock level shop.

No other web shop works like Sana. Due to our sophisticated way of integrating, part of Sana is installed within Dynamics NAV. As a result, your ERP does the calculation of the online shopping cart, real-time. This way your customers are able to see customer specific prices, your actual stock will be shown and discount rules will automatically be calculated in your shop. Plus, Sana Express enables you to process your orders instantly.

Your shop, your design

Everything you need to make your online store stand out.

We offer a customizable design that enables you to easily create the look and feel of your shop. Sana Express helps you to design your store to support your business, regardless of your design skills.

There's no need for extensive CSS or HTML knowledge. Plus, the easy to manage front-end editor allows you to quickly make changes in the design of your shop. Designing could not be any easier.

making your products findable online: Sana Express takes care of it. For example, automatically generated sitemaps tell search engines what pages to index.
